**THE SUNDAY TIMES**

Providing consulting work to help organisations and governments automate solutions to overcome profit damage, sustainability issues and financial loss from COVID-19. Automating solutions for preparing for a new era of medical intervention distribution on a large global scale, recovery, sustainability, economic growth and eventually high-frequency innovation and prosperity. Our objective is to protect assets and people from threats to their well-being.

We are an equal opportunities organisation, operating inline with the government of the UK's disability confident scheme and the US EEO/Affirmative Action.

Currently based in London but remote working available in and around London, Chicago, New York, Tel Aviv and Dubai
