

## Legal & Financial Technology

Legal technology, also known as Legal Tech, refers to the use of technology and software to provide legal services and support the legal industry. Legal Tech companies are often startups founded with the purpose of disrupting the traditionally conservative legal market.

## eDiscovery

Electronic discovery (also called e-discovery or ediscovery) refers to any process in which electronic data is sought, located, secured, and searched with the intent of using it as evidence in a civil or criminal legal case. E-discovery can be carried out offline on a particular computer or it can be done in a network.

## Cyber Security

Computer security, cybersecurity or information technology security is the protection of computer systems and networks from the theft of or damage to their hardware, software, or electronic data, as well as from the disruption or misdirection of the services they provide.

*Livesilver Consulting*

Robo-advisors or robo-advisers are a class of financial adviser and legal advisor that provide financial advice or investment management online with moderate to minimal human intervention.

This will be provided by an avatar or by a physical robot.
